

# REMOTIV PORTAL

Your personal, online Retirement Readiness dashboard customized just for YOU

## Personalize your RR Portal

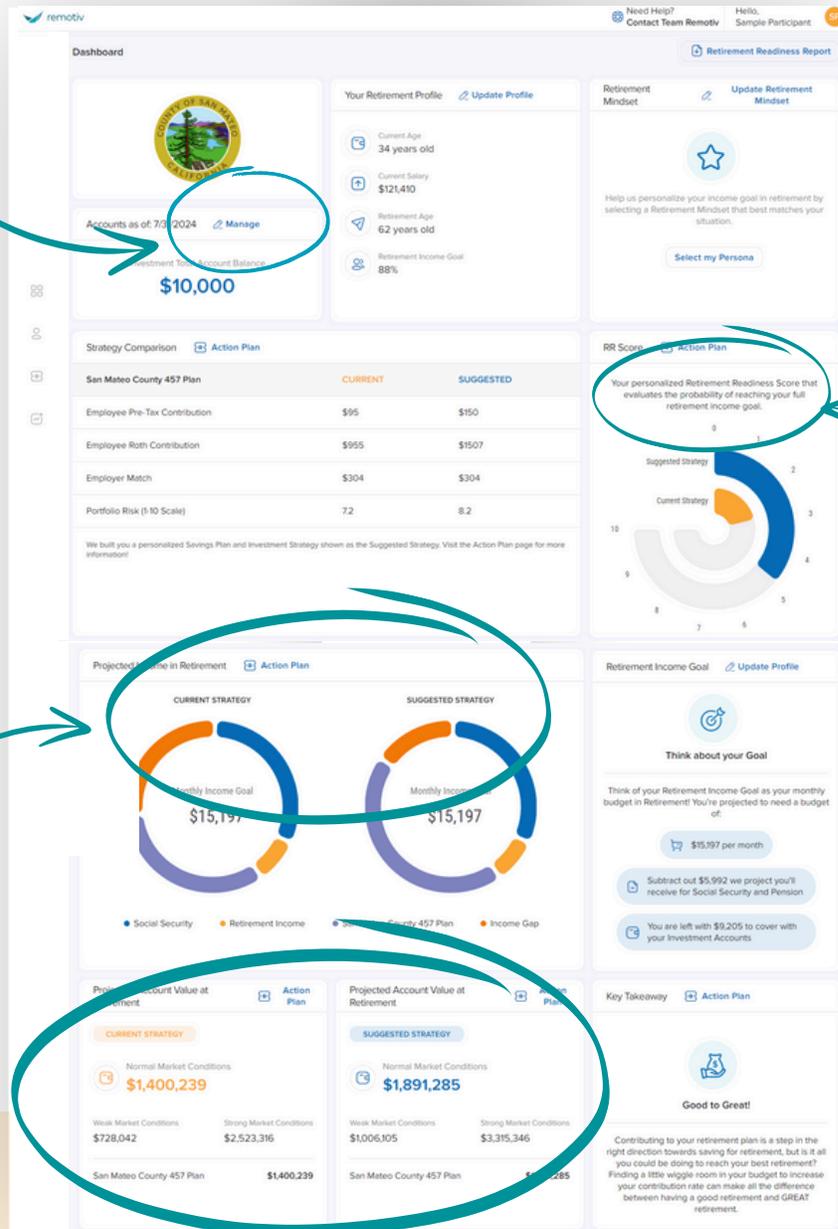

Update your profile and adjust default settings to improve accuracy of your retirement readiness projections.

## Income in Retirement

Calculates withdrawal schedules available throughout retirement years from different income sources like SamCera and drawdown strategies giving you critical insights into estimated cash flows

## Savings Strategies

Check out your current vs suggested savings strategy and see how Remotiv's recommendation can help you improve your RR Score and retirement readiness.

## RR Score

A personalized calculation showing how on track you are for retirement using a scale of 1-10. A goal of 7.5+ is "on track."

## Advice

A personalized savings and investment strategy recommendation is provided to help you increase your retirement readiness outlook.
