Terminations, Revocations and Flashes

There were forty-two (42) terminations during the reporting period. Seventy-nine percent (79%) were successful. There were nine (9) supervisors affected by Prop 47.

Total # of Supervisees Successfully Terminated		Total # of Supervisees Unsuccessfully Terminated	
PRCS – 13	MS – 20	PRCS – 4	MS – 3
<ul style="list-style-type: none"> • Early Terminations: 2 • Normal Terminations: 11 			

In the reporting period, we filed a total of thirty-three (33) revocations. Of those, thirteen (13) were PRCS revocations and twenty (20) were MS revocations. The breakdown by violation category is below:

Violation Type	PRCS	MS	Percent of Violations
Property	1	2	9%
Drug/Alcohol	4	3	21%
Crimes Against Persons	2	0	3%
Technical	1	12	42%
Other Crimes	5	3	24%
TOTAL	13	20	100%

Generally, the population is reoffending by committing crimes similar to those for which they are on Realignment, namely non-serious, non-violent, non-serious sex related crimes.

Forty-two percent (42%) were for technical violations, a decrease when compared to the previous quarter. Technical violations of supervision are filed when supervisees abscond or fail to abstain from substance use. Thirty-three percent (33%) of the revocations filed were for new law violations involving crimes against persons, property and drug/alcohol related crimes. Twenty-four percent (24%) were for other crimes such as possession of a destructive device, as possession of ammunition by felon, misdemeanor hit and run, resisting arrest by use of force/violence, and reckless evading peace officer.

There were twenty-nine (29) flashes during this reporting period.

Service Connect HSA Dashboard ATTACHMENT C

FY 14-15, Q3 (January 2015 – March 2015)

New Intakes

This quarter, Service Connect has seen a slight decline in the number of new participant intakes. This decrease may be a result of the new sentencing related to the implementation of Proposition 47. The active caseload for Social Workers remains around 80 clients.

Eligibility/Benefits

Service Connect has seen a slight decrease in applications for benefits enrollment, presumably due to the overall decrease in new clients. We anticipate seeing increases in Cal Fresh applications beginning April 1st with the implementation of Assembly Bill 1468, which increases Cal Fresh eligibility for individuals previously denied due to certain drug felonies. Service Connect continues to see low enrollment in General Assistance, as most clients opt to participate in the 550 Jobs! rapid employment program in lieu of receiving General Assistance funds. During the third quarter, Service Connect enrolled 9 clients in CalFresh, 7 in Medi-Cal, and 1 in General Assistance.

Employment Services – 550 Jobs!

Job placement rates for participants in the 550 Jobs! program have maintained consistency. As in past quarters, over half of those gaining employment have been placed in community employment, earning hourly wages between \$10.00 and \$13.50. Clients have been placed in jobs in local businesses in positions such as fiberglass manufacturing associates, food service workers, and janitorial. Offsite training participants were placed at positions with South Bay Recycle, San Mateo County Parks, and Caltrans Litter Abatement crews.

Services Provided to Clients

While new intakes have declined slightly during this quarter, Service Connect has seen consistent utilization of Safety Net vouchers, which are accessed by clients actively engaged in services. Our largest areas of need continue to be temporary housing and transportation.

Family Re-Engagement

This quarter, Family Re-Engagement activities included outings to local businesses, including Pump It Up bounce house and Gama Ride game center, among other events. Participation in these family-focused events has increased, and during our most recent event at Gama Ride, we hosted 31 participants and their family members.

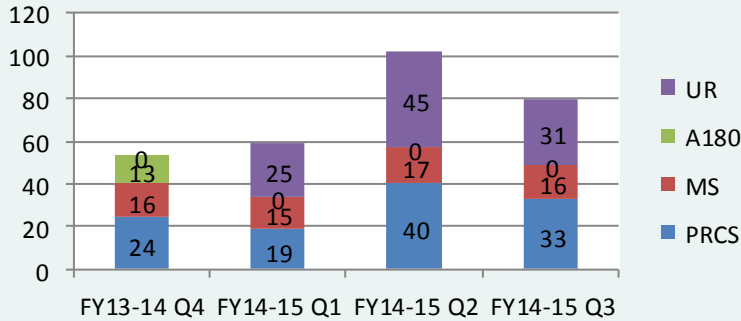

Peer Support/Groups

Service Connect shows strong participation in groups overall, with up to 13 participants per session. However, enrollment in the Moral Reconnection Therapy series has slowed, and staff is exploring methods to increase participation.

Service Connect maintains a strong peer support component to services. Lower referrals to peer mentors this quarter are reflective of the lower number of new clients overall. Of the 31 individuals referred for peer mentorship during the third quarter, 20 (65%) have made a connection and are working with a mentor.
